

A few days later, on the 31/10 we leave Albany, and Australian shores, for Suez via Colomba and Aden. We arrived in Egypt late November 1914, and camped near the pyramids.

By the end February 1915 I had been all over the pyramids and sphinx. In the foreground of this card above I marked one of the blocks with a X and it measured 10'x4'x4' and I have no idea how they were put in this position.
